

# MORE THAN *just* A BOX

A Boden order arriving just got even more exciting. Save the cardboard box and turn it into a theatre with our step-by-step guide. We've even made some characters based on our Mini prints to star in the show.

Scroll down to print all the extra bits you'll need.

1

1: Gather all your materials - including the printed cut-outs. You'll need a grown-up to help too.

2

2: Draw a 5cm-wide border on top of the box and cut out the centre.

3

3: Open the box and paint a jungle scene inside. Colour in the printed trees and glue them to the background.

4

4: With the box closed, paint the front border. Let everything dry before the next step.

5

5: Cut out a strip on top that's 5cm wide and almost as long as the box.

6

6: Colour in the animals and then glue them to thin card. Cut them out.

7

7: Attach the animals to the sticks with a piece of tape.

8

8: Assemble an audience, your theatre is ready for its first performance.

## What you'll need:

A CARDBOARD BOX

SCISSORS

GLUE

PAINTS AND BRUSHES

THIN CARD

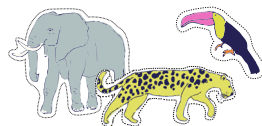

COLOURING PENCILS

WOODEN STICKS

TAPE
