# Take the drawing reins

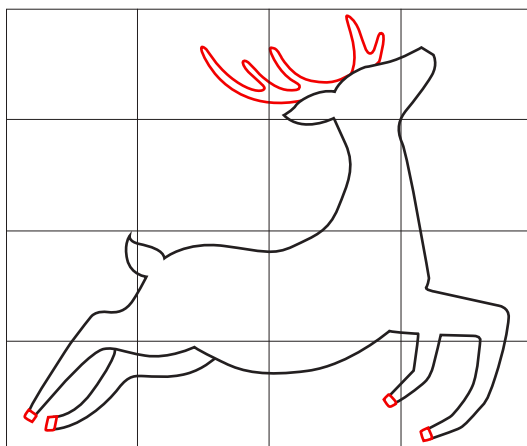

Follow our step-by-step instructions  
for creating a reindeer.

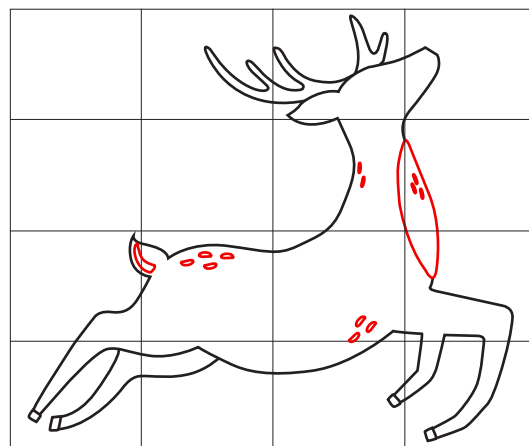

Step 1 Start with an outline of the body.

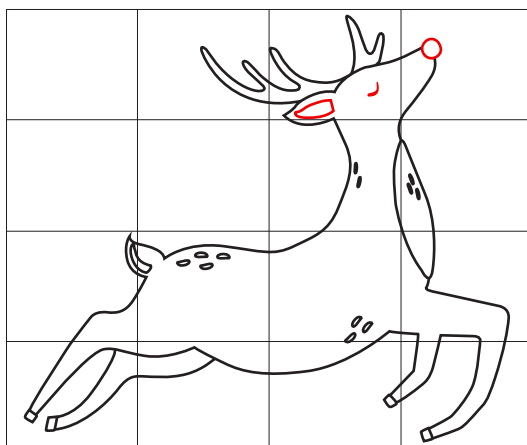

Step 2 Add the back leg.

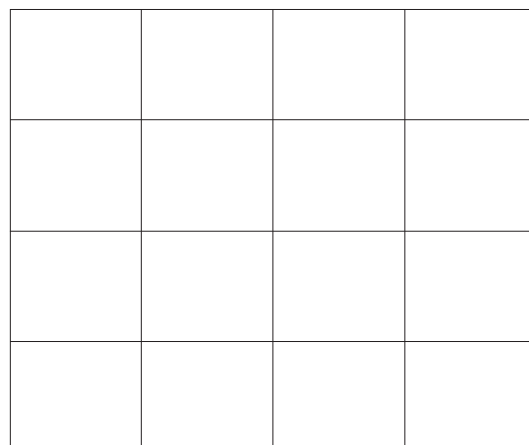

Step 3 Add hooves to each leg and some majestic antlers.

Step 4 Carefully add markings to the chest, body and tail.

Step 5 Complete the face with an inner ear, eye and nose.

Have a go yourself using this grid and then complete the picture on the next page.

# Decoration stations

Leave no surface, branch or door handle undecorated with these easy paper ornaments.

## You will need

Green and yellow card

Brown paper

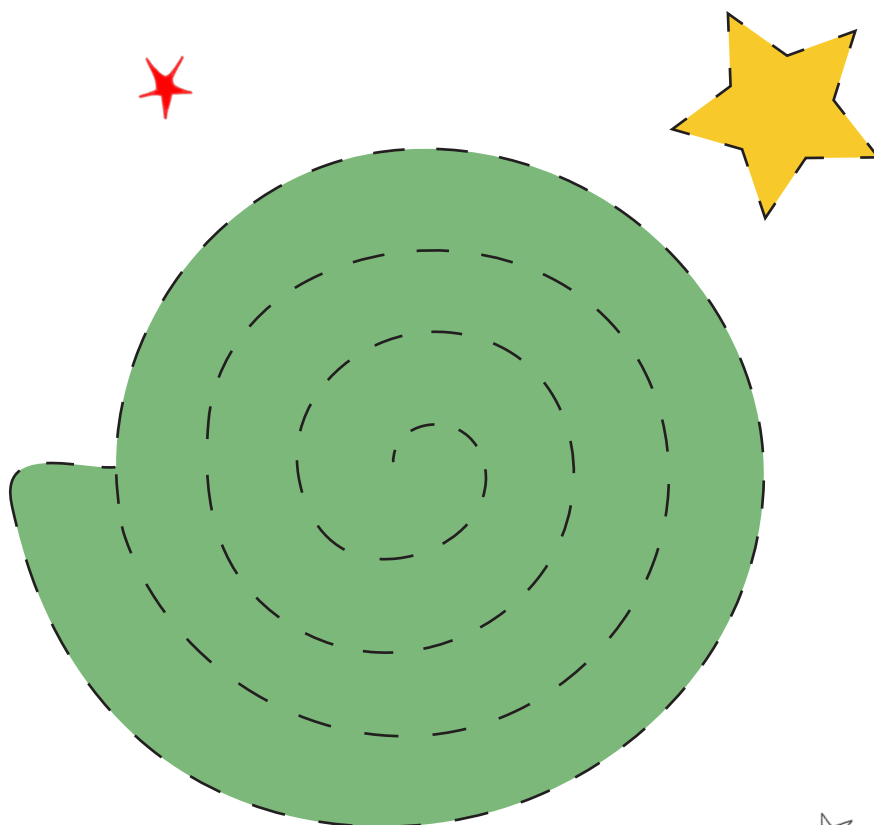

Pencil

Scissors

Glitter glue

Ribbon

Craft glue

## To make the tree:

### Step 1

Cut out the circle template above and trace onto green card. Cut around the spiral shape.

### Step 2

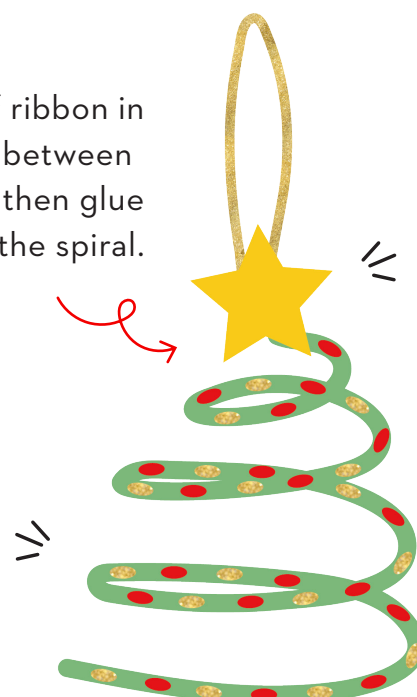

Trace the star template onto yellow card and cut out two stars.

### Step 3

Decorate with glitter glue or coloured pencils.

### Step 4

Tie a piece of ribbon in half and glue between the stars and then glue to the top of the spiral.

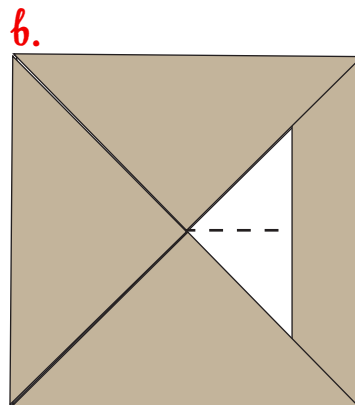

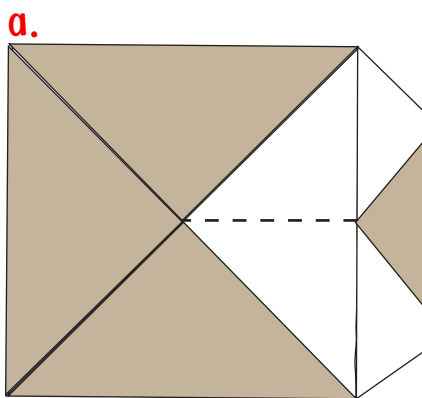

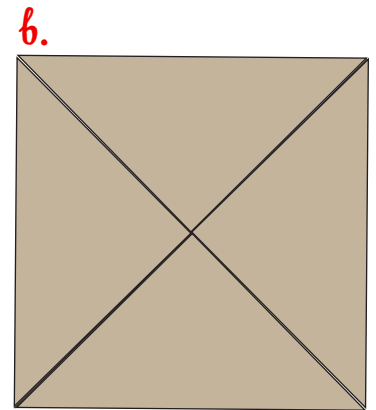

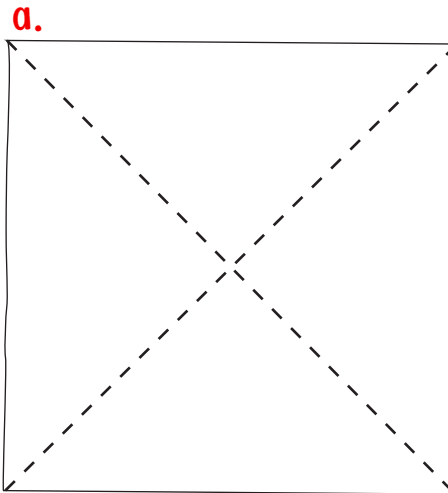

# To make Sprout the dog:

## Step 1

Start with a square of paper and fold it in half diagonally and then unfold. Repeat in the opposite direction to create an X. Fold all the points in to meet in the centre.

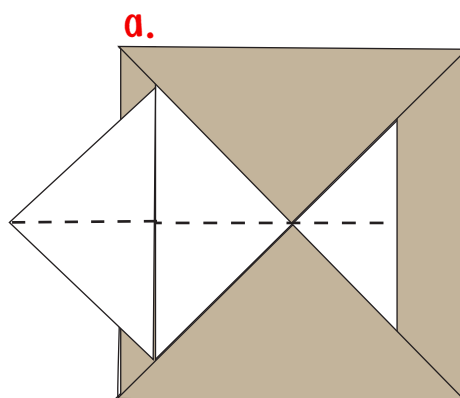

## Step 2

Open out one of the points and then fold it so that the point meets the previous crease. Fold back along the crease to make a square again.

## Step 3

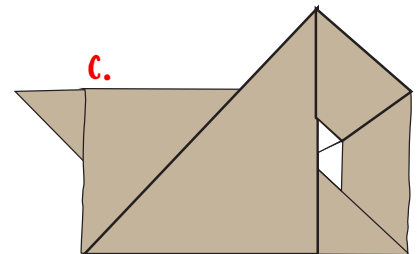

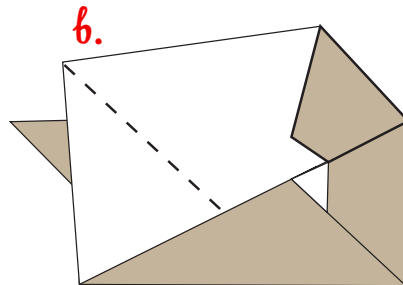

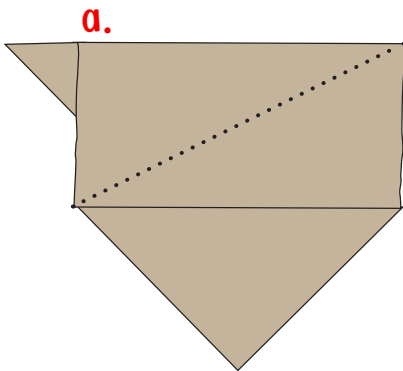

Open out the opposite point and then fold back on itself so that the point extends beyond the square by 1.5cm. Fold in half as shown.

## Step 4

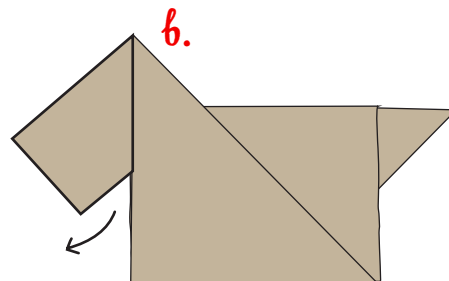

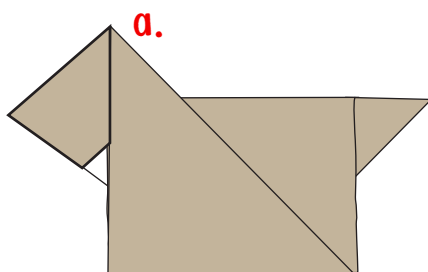

Open out the front flap so the point is extended, then fold back diagonally along the dotted line shown in image a. It should now look like image b. To finish this side, fold the point down along the crease line.

## Step 5

Turn over and repeat step four, mirroring the actions. Then pull out the fold from underneath the dog's head to create a snout. Draw on a nose and pair of eyes and glue down sides if desired.

Hang with a piece of ribbon and leave merrily trying to catch branches of the Christmas tree
